

SEASON 2017

CATCH REPORTING VIKEDALSELVA

Everyone with fishing license and has carried out fishing must send a SMS after each ended fish day, regardless of whether they have caught fish or not.

You have to send four SMS if you fish Thursday, Friday, Saturday and Sunday (one SMS after each ended fish day). This is independent if you do not get any fish or have release all cached fish.

If you have fishing license for a period, no SMS registration needed for fish days without any fishing.

The catch reporting will be online at web-link: http://vikedalselva.no/fangst_sms.php

The reporting SMS shall be sent following number: **2105** (NOK 3,- per SMS)
